UNITED STATES PREPARES FOR CENTRAL AMERICA EMERGENCY

Additional Marines And Planes Sent To Caribbean Waters—Reported Honduran Revolution Is New Menace

WASHINGTON, Feb. 17.—The American government is preparing for "any eventualities" in Central America.

The dispatch of 200 additional marines, and six airplanes, manned by a personnel of 100 officers and men, together with the departure of the transport Henderson today with 800 bluejackets for duty with the fleet in Caribbean waters, merely reflected the growing uneasiness with which the administration regards the trend of developments below the Rio Grande.

The Nicaraguan civil war is becoming daily more serious, despite the indirect aid given Adolfo Diaz by the American occupational forces through the establishment of "neutral zones" in the pathway of the victorious Sacasa revolutionists.

A new revolution is reported brewing in Honduras and may break out next week. Honduras followed the lead of the United States in recognizing the Diaz regime in Nicaragua, which inflamed the liberal element of the republic to the point where it gave impetus to the revolutionary movement that always smolders beneath the surface in those countries.

In Guatemala, next door to Mexico and Nicaragua, extensive army recruiting is reported under way, financed in part by a loan of a million and a half pesos just secured from Mexico. Guatemala has consistently refused to recognize Diaz in Nicaragua, although pressure was brought by the state department to persuade her to do so. Guatemala is also one of those

countries in which the state department considers "radical Mexican doctrine" has made most headway.

The efforts of Admiral J. K. Lattimer, in charge of the American occupational forces, to stop the Nicaraguan civil war have resulted thus far in no success whatever, according to reports reaching Washington. Several reports from Lattimer have reached the state department in the last few days, but none of them have been made public.

The Sacasa revolutionists have been making steady progress. They are now menacing Matagalpa, the second city of Nicaragua.

TWO FOUND GUILTY ON LIQUOR CHARGES

Two more alleged violators of the prohibition laws were found guilty of liquor charges at hearings before Probate Judge S. C. Wright, Wednesday afternoon.

Overruling a motion for a jury trial of the case, Isaac Shaffer, Yellow Springs, was found guilty of illegal sale of liquor. Mrs. Ruby Cavigall, charged with selling liquor in violation of the law, was also found guilty.

Both had pleaded not guilty. Sentences in both cases were reserved by the court for three days. Motions for new trials are expected to be filed, meanwhile, by counsel for the accused.

MYSTERY OF BLOODY AUTO UNSOLVED

CINCINNATI, O., Feb. 17.—The mystery surrounding the finding of a blood stained automobile, identified as having been stolen from Roy Lutes, Dayton, O., which was given additional baffling aspects through the discovery of blood soaked women wearing apparel stolen from Mrs. Mamie Vandergift, Columbus, O., lying nearby, was still unsolved by police here today.

Cantonese Troops Start Drive

ATTACKERS CIRCLE HANGCHOW; EXPECT CITY TO FALL SOON

Drive On Shanghai Meets
With Success On
First Day

SHANGHAI, Feb. 17.—Slowly the Cantonese armies are encircling Hangchow and its fall now appears to be but a matter of time.

The armies of General Chang Kai Shek are now reported less than ten miles from the Gate of Hangchow.

The civilian population is reported to be fleeing and troops of Sun Chuan Fang, the defender, are withdrawing to new strongholds to the rear of Hangchow.

SHANGHAI, Feb. 17.—The long anticipated drive by the Cantonese troops under Marshal Chiang Kai-Shek, having for its object the capture of Shanghai, was on in full force today. The Cantonese and the forces of General Sun Chuan-Fang, governor of Chekiang province, were locked in desperate battle a few miles south of Hangchow.

The Cantonese launched their attack yesterday, following the arrival of heavy reinforcements from Szechuan and Hupeh. The Sun Chuan-Fang troops, weakened by treachery within their own ranks, fought desperately, but were forced to retreat, and last night Hangchow was in considerable danger of being captured by the southerners. Today, however, with the dispatching of heavy reinforcements of Sun troops, it was believed this danger had been largely offset.

Both sides lost heavily in the fighting yesterday, and the fighting today continued with equal severity.

Cotton, Republican, Lorain county, providing for a filling in on all mortgages, offered for record, of fifty cents per \$100, on mortgages running less than ten years; eighty cents per \$100 on those maturing between ten and twenty years, and \$1 per \$100 on those running beyond twenty years.

DOUBLE MURDER IS PUZZLING POLICE

CHICAGO, Feb. 17.—Police today were confronted with a double death mystery following the discovery of the body of a woman apparently beaten to death only a short distance from a man with a bullet hole through his head.

Both were well dressed and police believed the man might have killed the woman and then committed suicide.

The bodies were found on a vacant lot.

TEXAS GUINAN ARRESTED

MYSTERY BLAST WRECKS THREE STORY BUILDING; TWO HURT

CHICAGO, Feb. 17.—A three-story building was completely demolished by a mysterious explosion here today. Windows in houses within a radius of four blocks were shattered.

Two persons in the wrecked building were seriously injured. Police are searching the ruins for trace of several missing persons, believed to have been killed.

The wrecked building has long been a mystery to people living in the neighborhood. James Michelo, owner, told police he had rented the first floor to a man who operated a vegetable and grocery store. He said he did not know his name, however.

Police expressed the opinion that a giant still, believed to be operating in the building, caused the blast.

DEFENSE OF RUDNER LAUNCHED AT TRIAL IN MELLETT MURDER

Character Witnesses And
Others Will Take
Stand

CANTON, O., Feb. 17.—Defense of Ben Rudner, Massillon, on trial charged with first degree murder in connection with the slaying of Don R. Mellett, Canton publisher, was actively under way here today with persistent rumormongers throughout the court room that a number of surprises were imminent.

S. A. Lengel, former Canton police chief, and reputed friend of Rudner, has been subpoenaed. The accused man's wife, father and other relatives will take the stand as character and alibi witnesses in his behalf.

Defense counsel will attempt to show that Rudner was never mentioned in any of Mellett's editorials or news stories, that their client did not know the publisher and could have had no possible motive for murder.

They will also contend that Rudner did not know Patrick Eugene McDermott, convicted as one of the slayers of Mellett, and that Rudner never sent or received telegram or telephone messages from McDermott.

It has not yet been announced whether McDermott, Louis Mazer, (the third man indicted for the crime) or Rudner will be put on the witness stand. Counsel for the defense has so far given out no statement in this connection.

NEW TAX PROPOSAL UP BEFORE HOUSE

COLUMBUS, O., Feb. 17.—Action on a new taxation proposal, designed to produce about \$6,000,000 in revenue annually, is expected to be taken today by house members here.

DEBT DISCUSSION AGAIN POSTPONED

PARIS, Feb. 17.—The postponement of ratification of Mellon-Berenger debt accord until autumn was foreshadowed today when the cabinet decided to ask parliament to discuss military reform, the 1928 budget and sectoral reform, before adjourning July 14.

These discussions would allow no time for debt discussion, which it is now believed can not be taken up before a special session beginning in October.

APPOINTMENTS TO HOME BOARD CONFIRMED BY STATE SENATE

Appointments of Governor Vic Donahey to the board of trustees of the O. S. and S. O. Home and Combined Normal and Industrial Department of Wilberforce University were confirmed by the state senate without a dissenting vote Wednesday.

Former Judge David F. Pugh, Columbus, Republican, and W. T. Amos, Sidney, Democrat, are new members of the Home board. Pugh is appointed for the term ending in April, 1931 and succeeds D. Q. Morrow, Hillsboro, Republican. Amos replaces C. L. Gebauer, Cleveland, Republican, and is ap-

MINER CONFERENCE IS BARGAINING FOR NEW WAGE CONTRACT

Skirmishing Over And
Committee Gets To
Business

MIAMI, Fla., Feb. 17.—The soft coal miners and operators joint wage conference got down to brass tacks for the first time today.

Done with three days of skirmishing and maneuvering designed largely for "home consumption," the special scale committee, meeting behind closed doors, rolled up its sleeves and started seriously to bargaining for a new wage contract to replace the existing one that expires March 31.

Agreement in the sub-committee, however, apparently was no nearer than in the general conference. The miners dressed up their proposal but offered to settle for two years virtually on the basis of the present Jacksonville contract with no reduction from the \$7.50 daily wage.

The operators tacked to this plan their scheme for a joint wage commission of four miners, four owners and three neutral mediators. The idea back of the operators' proposal is to reduce wages to conform more closely with the non-union scale, and to place in hands outside the industry the question of solving miners-operators' disputes.

TAUNTER KILLED BY ALLEGED VICTIM

COLUMBUS, O., Feb. 17.—Because he claimed John Bracken, negro, "taunted him and threw rocks at him," Charles Glasmecher, 61, a laborer, shot and killed Bracken, and was held here today on a murder charge. SLAYER OF GUARD TO KNOW FATE SOON

MANSFIELD, O., Feb. 17.—The fate of Philip Orleck alias William Fox on trial here for the first degree murder of Urbin Wilford, reformatory guard, is expected to be in the hands of the jury late today.

State's attorneys rested their case against the reformatory inmate today after George Trot, Cambridge, testified Orleck was the man who fired the fatal shot in to Wilford as he attempted to frustrate Orleck's attempt to free his former cellmate Virgil Daykin.

Trott was paroled from the reformatory twelve days after his attempt to capture Orleck. Indications are Orleck will take the stand in his own defense.

FAMOUS NIGHT CLUB HOSTESS CAPTURED BY LIQUOR RAIDERS

Disgruntled Patron
Among Federal Raid-
ing Officers

NEW YORK, Feb. 17.—Texas Guinan, probably New York's most widely known night club hostess, was arrested and taken to jail early today following a raid on her "Three Hundred" club by a dozen federal prohibition agents. Three charges were filed against Miss Guinan.

1. Violation of personal injunction against selling liquor;
2. Possession of intoxicating liquor;
3. Sale of intoxicating liquor.

None of the nearly 200 guests present were molested by the prohibition raiders, but there was considerable consternation and confusion as waiters rushed from table to table knocking over glasses and bottles, spilling their contents.

Miss Guinan was taken to the West 47th Street police station where she was held pending hearing of her case by a United States commissioner.

The prohibition agents entered the club disguised as guests shortly after midnight. For two hours they sat apparently participating in the festivities, until they secured the desired evidence—a pint of liquor purchased for ten dollars.

One of the agents—attired in evening dress—stepped up to "Texas," laid his hand on her shoulder and said:

"You're under arrest."

"Texas," who has gained something of a reputation for rough and ready answers, came back thus:

"What, again? Well, I hope I can go there in a taxicab."

What she referred to as "there" meant the police station, and the agents accorded her the courtesy of letting her ride in a taxicab. A group of her entertainers followed, and they were joined by a score or more of guests at the club, not in a mood by that time to miss any of the excitement.

A wealthy New Yorker is said to have been indirectly responsible for the raid on the "300" club. Some time ago, the story goes, he lost \$7,000 in the night clubs. So bitter did he become against the night club fraternity that he went to Washington and secured a job as an under-cover agent for the government. He was in the raiding party this morning.

SENATE REJECTS TWO APPOINTEES

COLUMBUS, O., Feb. 17.—The Ohio senate, it was believed today, established a new record for speed in the upper legislative branch by taking action on thirty-nine appointments by Governor Vic Donahey, confirming thirty-seven and rejecting two, all in about ninety minutes.

These gubernatorial selections were for membership on various state commissions and boards.

By a vote of 2 to 25, the senate rejected Donahey's selection of C. C. Thorpe, Columbus, Republican, as a member of the state utilities commission for a six-year term.

Senators George H. Bender, Cleveland, and J. Eugene Roberts, Youngstown Republicans, are the only senators credited with voting for Thorpe's confirmation.

The senate, by casting thirty-one negative votes, unanimously rejected Donahey's appointment of William C. Groniger, Columbus, as a member of the state board of building standards.

YOUNG HONORED AT CHICAGO EXHIBIT

CHICAGO, Feb. 17.—Swimming enthusiasts of Chicago paid tribute today to George Young, Toronto youth, winner of the \$25,000 Catalina swim, by comparing him to Perry McGillivray, one of the greatest of swimmers.

Young appeared here last night in an exhibition in the Chicago Athletic Association pool, swimming 400 yards in 4:59 after swimming faster at the finish than the start.

Young uses the American six-beat crawl with a free, powerful arm movement. His style is almost identical with that of McGillivray.

MURDER ADMISSION CLEARS ACTIVITIES OF HIGHWAY BANDITS

Gang Member Confesses
Slaying Woman Near
Cincinnati

CINCINNATI, O., Feb. 17.—"I've told you enough to send myself to the electric chair, but I just wanted to get square with God."

With those words, William "Bill" Anglian, 27, made a confession that today had cleared the murder mystery of Mrs. Sherlie Glardon, Cincinnati boarding house keeper, and definitely fixed the blame on himself, his brothers and two other youths for the activities of Hamilton County's "highway terrorists."

"Yes, I did the shooting," he said. "We went out that night and came upon a car parked along some road. A couple of the boys got on the side of the car—there was a yell and the driver suddenly started his car."

"Then I shot—that's all there is to it. Please don't beat me for telling the truth."

Mrs. Glardon was shot while riding with Peter Brown, Hillsboro, O., contractor, with whom she was said to have been keeping company.

John and George Anglian, Cecil Bennett, and Gordon Lawrence, all of Cincinnati, through Bill Anglian's confessions, and through their own admissions to participating in highway robberies, face more than a half dozen charges each, according to County Prosecutor C. B. Taft.

The county grand jury which has been conducting an investigation into the "highway terrorists" gang, will report tomorrow, the prosecutor said today.

ROUND-WORLD AGE DELAYED AT BOLAMA

RIO JANEIRO, Feb. 17.—The Marquis De Pinedo, Italian ace who is attempting a trans-Atlantic flight, apparently was unable to make his start from Bolama, Portuguese New Guinea, last night as he had intended.

The radio station at Fernando De Noronha had picked up a message from De Pinedo stating he would arrive on the Brazilian coast today but no word has been received of his departure.

Unofficial reports stated that De Pinedo was held at Bolama by engine trouble.

The Brazilian cruiser Barroso has been sent out to await De Pinedo's arrival.

PROPERTY DAMAGES HEAVY AFTER STORM HITS GOLDEN STATE

Rescuers Redouble Efforts To Reach Missing At Camp

SAN FRANCISCO, Feb. 17.—With an estimated death list of thirty-two, five others expected to die, the number of injured mounting close to one hundred and property damage reaching into the millions, California today was recovering from one of the worst storms in the history of the state.

Thirteen persons are known to be dead as the result of the avalanche which engulfed a southern California Edison construction camp seventy-five miles from Fresno. Five others are near death from injuries in the same accident. Twenty others suffered less serious injuries.

Railroad wrecks and traffic accidents took an additional toll of fourteen lives in the vicinity of Los Angeles.

Five other deaths have been reported from various sections of the state, all directly in connection with the storms.

Heavy wind and seas have played havoc with wharves and shipping.

High water has forced more than 2,000 persons to vacate homes. Although the southern part of the state suffered the most, the northern and central parts of the state sustained heavy property loss.

High winds tumbled over barns and fences in Central California, caved in countless windows, toppled over windmills and oil derricks and uprooted huge trees.

Many highways in all sections of the state have also been blocked by mud slides.

The storm had apparently worn itself out in California today. The weather is clear in Los Angeles.

At San Francisco the wind had subsided, although another rainfall is impending.

The lull is temporary, according to weather bureau officials. They announced another major disturbance could be expected within the next forty-eight hours.

FRESNO, Cal., Feb. 17.—Possibility some of those missing in the snow slide which engulfed the construction camp of the Southern California Edison Company at Big Creek, seventy-five miles from here, may be alive today caused workers to redouble their efforts in digging into the ruins of the camp.

Thirteen persons are thought to have lost their lives in the avalanche, and five other are near death from injuries.

A remote hope existed some of the men buried in the slide might still be alive. It was pointed out that the cabins in which they were living might have been strong enough to withstand the shocks of the avalanche.

FORMER STUDENT AT SEMINARY TO VISIT EGYPT-HOLY LAND

Dr. H. A. Kelsey, vice president and professor of Bible in Muskingum College, New Concord, O., has made sailing reservations for a trip to Abyssinia, Egypt, and the Holy Land. Dr. Kelsey took his

DR. H. A. KELSEY

seminary course at the Xenia Theological Seminary, 1900-1902, and was frequently employed as a printer by the Gazette. The vessel upon which he has booked passage is the S. S. City of Cairo, sailing from New York March 5.

Dr. Kelsey's first stopping place is Abyssinia where he will be a guest of the reigning prince, Ras Tafari. In 1923 the Prince sent three of the young wards of his household to America to be educated. They were placed in Muskingum College and Doctor Kelsey was appointed their guardian and advisor. These youths have made singular progress in their studies. It is to report on their work and to confer with the Prince that takes Dr. Kelsey to this country seldom visited by the average globe trotter. After his visit in the capital city, Addis Ababa, Dr. Kelsey will visit the mission stations recently opened by the United Presbyterian denomination.

The next point listed on Dr. Kelsey's itinerary is Egypt. Here he will be met by his eldest daughter, Miss Elizabeth, a teacher in the Schutz School for missionaries' children, in Alexandria. In Egypt the Doctor will be welcomed by a host of Muskingum folk, his former students and associates of other days.

At the Easter season Dr. Kelsey, accompanied by his daughter, will be touring Palestine. In June the Kelseys will return to the United States via the Continent, visiting places of interest as they travel through Europe. On the return voyage they will be accompanied by Miss Bernice Warne, a fellow worker and former classmate of Miss Kelsey in Muskingum College.

LOOK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH

Hurry, Mother! Remove poisons from little stomach, liver, bowels

Give "California Fig Syrup" at once if bilious or constipated

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Fig Syrup," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless, "fruity laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of "California Fig Syrup," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by the "California Fig Syrup Company." Refuse any other kind with contempt. Adv

ALLA RAGEH ANSWERS QUERIES FOR READERS OF THIS PAPER

Alla Rageh, the "mystery man" of The Evening Gazette and The Morning Republican, was "swamped" with letters Thursday. The "mystery man" is giving the letters as much attention as possible but finds it impossible to answer all the letters directed to him.

Stacks of letters have been received at the newspaper offices, seeking the advice of Alla Rageh, the mentalist, who is appearing Thursday night and Friday at the Bijou Theatre. Due to lack of space it will be impossible for Dr. Rageh to answer all inquiries. Here are the questions and answers picked at random from Thursday's mail:

Mae L. H.—Is the young man I am keeping company with true to me, and would I do well to marry him? **Ans.**—The man you are keeping company with is a married man, has a wife and three children in Cleveland, O., and is now dodging back alimony payment. A word to the wise is sufficient.

E. E. and S. M.—How soon will we change positions? **Ans.**—You, E. E., will not make a change before the late fall months. S. M. will change within the next six weeks.

Dear Mystery Man—I know my husband runs around with other women and what I want you to do is tell me how to catch him at it. **Ans.**—It will be impossible to answer your question through the columns of this paper. I am giving one of my famous Bombay seances for ladies only tomorrow morning at 10 a. m. Attend this special ladies matinee and I will give you all details, including the names of the women.

Wife—Will my husband be appointed to the position he is seeking? **Ans.**—Yes, conditions now favor his appointment and very soon too.

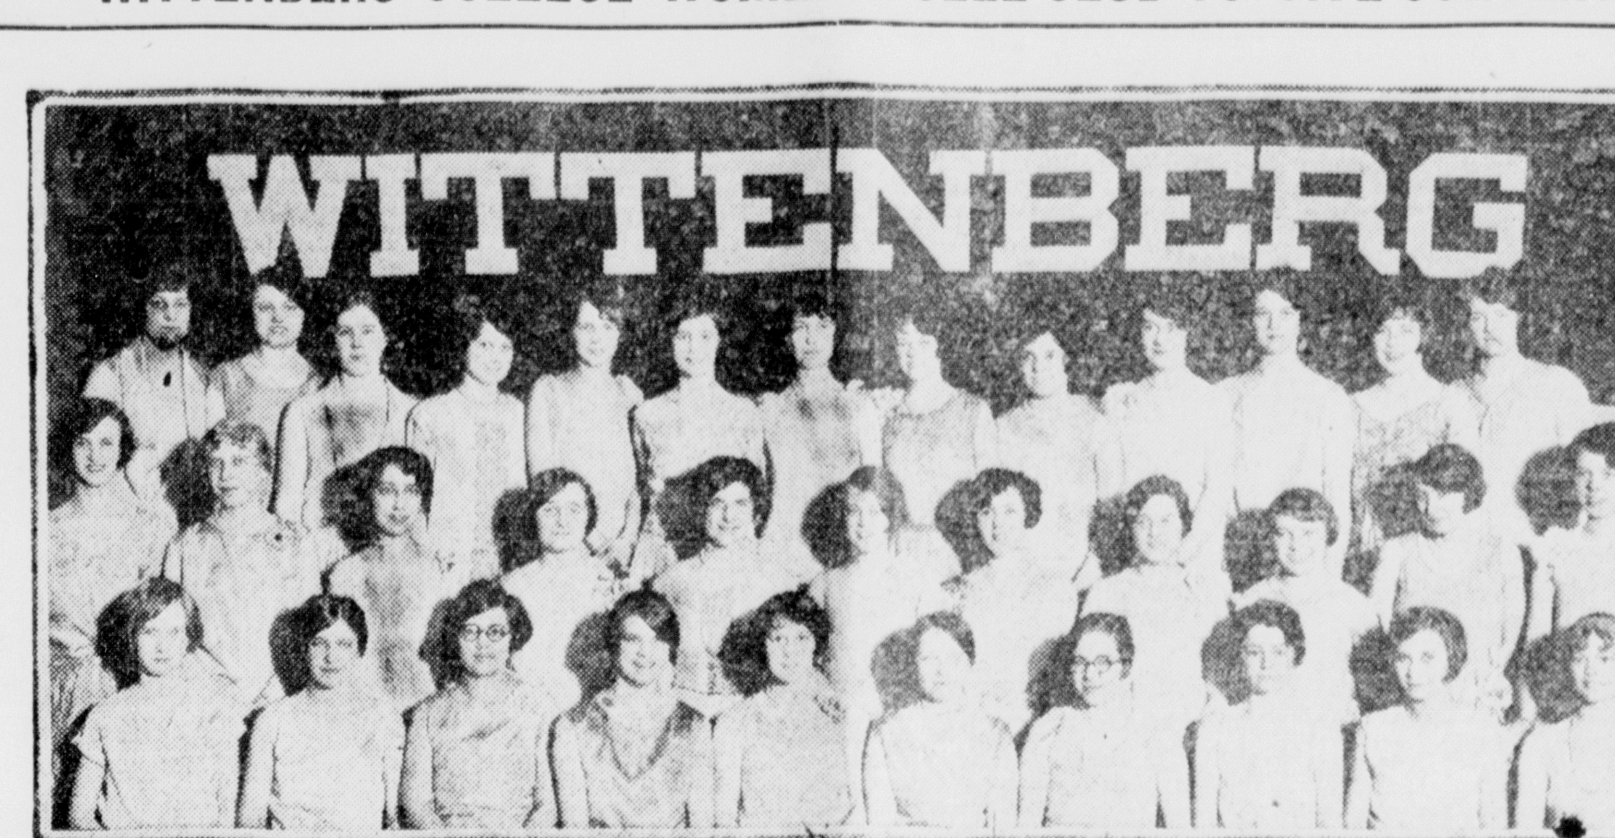

Babe—Tell me where to find my little vanity case, I lost Tuesday? **Ans.**—I see that you were out riding in a Chevrolet coupe Tuesday night with a boy friend. It seems as though you dropped the vanity case while he made love to you. Look under the seat of the coupe and you will find your case.

M. L. S.—Where can I secure a full astrological reading of my life. My friend has one and it is very fine but she has lost the address of the man she got it from? **Ans.**—I am considered a very capable astrologer and can erect a horoscope for you. Write me, care Ragueh Publishing Co., Station E, Columbus, O. Your planetary reading will consist of about sixteen typewritten pages, covering 1927 in detail and will also include a general life reading. My price for this work is \$2.00. Do not forget to send me the year, month, date, place and hour of birth.

H. C. E.—Shall I remain where I am or would a change be advisable? **Ans.**—I strongly advise a change. The sooner the better. You will never be a success where you are now.

WHAT TO WEAR and HOW TO WEAR IT

By LUCY CLAIRE
Favorite Fashion Adviser of the Smart Set

Colors may come and colors may go—in fact it is being done with such frequency at present that one scarcely knows on waking in the morning whether yesterday's color will be smart after all. But upon one thing we can always depend, and that is the clear, cool, refreshing white kidskin which knows no limitation of seasons, which is outdone by no colors in the rainbow, and which is flattering alike to one and all.

Some time ago I told you about the different types of shoes. You will observe that I have shown sev-

eral of those types here and, with a little study, you can select from among these a pattern which will become you.

At the lower left I have shown you a simple one-strap slipper of white kidskin with a scroll design

applied in black leather. This type of shoe is exceedingly becoming to the short foot that has a tendency to be broad. Why? Because the dark lines of black which extend from the forepart to the back of the shoe create the effect of added length and slenderness.

Now note the difference of the one-strap shoe shown at lower right, which is intended for just the opposite type of foot. First, you will notice that it has an open shank. By this I mean that space beneath the instep which is practically unsupported and upon which nothing but the most narrow slender foot could rest. The slipper is made entirely of white kidskin, even the bandings are pure white, and an effective touch of color is given by the enamel clasp which fastens exactly in the center of the instep.

The two slippers above at right are variations of the same model, and you will notice that they are both fashioned of white kid with beaded trimming of beige reptile leather. The reptile effect makes such smart trimming when used sparingly and by combining the beige tones on a white shoe, it is then possible to wear hose of that tint and many women consider the combination smarter than the white hose.

You will find that all of the principles I have outlined to you on the silhouette, color, and line of clothes, are applicable to your shoe designs as well. Sharply contrasting colors are just as dangerous in shoes as in dresses, for you do not wish to break the shape and grace of your foot any more than you would deliberately break the line of your figure directly in the center. And yet this color element, when artfully applied and judiciously chosen, can overcome many natural shortcomings of the feet. Plain pumps, as I have told you, are flat-

tering to almost any type of foot but the pump at the lower left, with its narrow-pointed toe-cap, black on a foundation of white kid, will surely improve the appearance of a plump, chubby foot.

White kidskin is preferable to any other white shoe material for several reasons, first and foremost of which is because it cleans so perfectly and easily and because its soft, smooth texture tends to make the foot look smaller. I have told you about the many light tints that are favored for slippers of kidskin, but if you would have your shoe wardrobe truly complete, then you will not omit one pair of white kid slippers any more than you would neglect to have a pair of the new ebony kid ones.

Tomorrow I am going to tell you something different, and that is what NOT to wear.

COMB SAGE TEA INTO GRAY HAIR

Common garden sage brewed into a heavy tea, with sulphur and alcohol, added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way to get the ready-to-use preparation improved by the addition of other ingredients. It is known as Wyeth's Sage & Sulphur Compound and can be obtained at all drug stores for only 75 cents a bottle.

While gray faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. —Adv.

Introducing The 1927 Major League Teams

NEW YORK GIANTS

This is the first of a series of sixteen articles dealing with the personnel and the possibilities of the major league ball clubs for 1927.

And so it came to pass that John J. McGraw was forced to admit a "master mind" may be sidetracked in deciding a major league baseball pennant.

Just when the Giants of 1927 were on the verge of a staggering around and resembling anything but a challenger for the pennant along comes an offer from the St. Louis Cardinals.

"Will you consider a trade for Rogers Hornsby?" was the message the Giants received from the neighbor out in the far west.

Would they? They did, and it is only because Rogers Hornsby is to appear at second base that the Giants of 1927 are given a touch of the pennant color for this coming season.

Hornsby joins the Giants with the reputation of a successful manager. He took charge of a club that was buried deep in the cellar on

June 1, 1925, and won the 1926 pennant.

Before assuming the role of manager, Hornsby was the king pin among the National League swatters. He had topped the organization for six successive years in hitting and promising to carry on, but as soon as he found managerial worries and problems, his batting and fielding slumped.

It is a matter of record that Hornsby dropped out of the .400 class down to .316 from 1925 to 1926.

But McGraw is among those who insist that he will regain his collection of singles, doubles, triples and home runs, as "one of the boys" on the field.

With no managerial worries on his shoulders, Hornsby is expected to lead the Giants into the championship zone. The Giants of 1927 were many miles below that particular field, finishing in the second division.

Regardless of the other changes

in McGraw's 1927 organization, Hornsby is the pivot and all of the pennant hubbub for the Polo Grounds has been staged around the former manager of the Cardinals.

While McGraw and his horde of followers are optimistic about the Giants of 1927 there are others who prefer to be shown and who are not so enthused about this year's entry.

It is pointed out that McGraw has an entirely new catching staff before him. He fired the entire lay-out of 1926 and is to be open with Al DeVormer, a veteran receiver, who has been brought back from the Louisville Colonels. He was a slow, steady plunger in his previous big league trials, but far from being a Rox Bresnahan, John Kling, George Gibson, Ray Schalk or Bob O'Farrell.

John Cummings from Wheeling and Sanford Hamby from Norfolk are the other catchers. The outfield also appears to be worn down a bit around the heels.

From last year's squad are Mueller, Ott and Tyson. About the former there remains some doubt. He has just recovered from a sick spell and may not recover the form that made him one of the stars of the league.

McGraw was wise to the situation with his outfield as he arranged a deal with the Phillies for George Harper and then went out and purchased DeWitt LeBourveau, who was a slugger in the American Association last season. Harper and LeBourveau, however, do not add any viciousness to the attacking power of the Giants.

With Ernest Jones from Birmingham, Moore and Smith added to what McGraw already has, including Young, Mueller, Ott, Tyson, Harper and LeBourveau, it will be seen what a merry scramble will take place in the outfield with the Giants this spring.

And McGraw could use another pitcher. Perhaps two, especially an effective southpaw. He has Virgil

Barnes, Fred Fitzsimmons, Kent Greenfield, Hugh McQuillan and Jack Bentley from the 1926 edition. Then he has added Burleigh Grimes the husky spit-baller from the Brooklyn Superbas. Grimes forms the big ace for the new pitching strength, but McGraw does not present anything else that is very attractive.

Frank Henry, a southpaw, who was considered a promising prospect in the American Association, with Indianapolis, is the most important of the minor leaguers. McGraw also has added Bill Clarkson, of Portsmouth; Kallina, from Stryker; Holland, a lean lad from the University of Virginia, who was given a trial by the Reds last summer; Ray Thomas, from Wichita, and Joe Stryker, a free agent.

It may be that McGraw's "master mind" will be working on all cylinders next season, but it is not forgotten that the same secrets used and praised in winning four straight pennants in 1921, 1922, and 1924 did not land a first division berth in 1926.

ARREST SUSPECT IN CONNECTION WITH AUTO TIRE THEFTS

Robert Nooks, 19, colored, Lexington, Mo., is being held at Police headquarters suspected of implication in the theft of two auto tires from a car owned by George Holstein, junk dealer, Collier St. Nooks denies the theft.

Following a report of chicken thefts, Peter Shagin, motorcycle policeman, and Patrolman George Robinson, were sent to the Nooks residence Wednesday morning by Chief M. E. Graham to investigate, and while there, saw two tires of the same make which Holstein later reported as stolen.

After examining them, the officers returned to headquarters, having had no report of the thefts. Holstein telephoned concerning his loss shortly afterward and police returned to the Nooks home only to find the tires had disappeared.

Robert Nooks, only member of the family at home, denied knowledge of them. On the first police visit, Vaughn Nooks, brother of Robert, who is believed to be an escaped prisoner from the Dayton Workhouse, ran from the residence as the officers approached. They gave chase but Nooks eluded them, running through the fields.

SENIORS CLINCH HIGH SCHOOL CLASS TITLE WITH VICTORY

After a terrific struggle, the seniors practically clinched the intramural basketball championship at Central High School by taking a one-point victory, 18 to 17, from the juniors in a game that was furiously fought all the way Wednesday afternoon at the school gym.

It was a speedy game and the juniors' last-half rush, after they had lagged fourteen points in the first two periods, just missed by one point of achieving victory.

The sensational reversal of form of the losing quintet in the final periods came as a complete surprise after its mediocre showing the first half.

Seniors led at the half-time point 16 to 2 but the juniors rang up points in rapid succession at the third period got under way and quickly drew up within hailing distance.

An impenetrable defense rendered the seniors' scoring tendencies null and void in the final quarters. Henrie's field goal gave the seniors the needed margin of victory.

Henrie also topped both teams in scoring with eight points. Higgins and Karch, with six points apiece, shared scoring honors for the losers. Lineups:

Seniors (18) Pos. Juniors (17)
Hill l. f. Lorimer
Sutton r. f. Karch
Henrie c. Kelter
Haverstick l. g. Higgins
Heaton r. g. Rakoff

Field goals—Henrie 3, Sutton 2, Haverstick 2, Hill 1, Higgins 3, Karch 3, Lorimer 1, Rakoff 1. Foul goals—Henrie 2, Rakoff 1. Substitutions: Seniors: Kremer for Henrie; Henrie for Kremer. Juniors: Schmidt for Kelter. Referee—Vic Kolb.

Thursday, Friday and Saturday nights will find them battling in the northern part of the state with Findlay, Bluffton and Kent State Normal in the order named.

Cedarville has previously won over Findlay and Kent State but suffered defeat at the hands of Bluffton. So this week it will be out to avenge one defeat and administer another defeat to the other two.

The Yellow Jackets lost two games last week, a heart breaker to Wilberforce and the other to the fast Earlham quintet. Now they are anxious to jump back in to the win column and show the fans they still have a real basketball team.

The boys have all worked hard for the trip realizing that it is their chance to make a real basketball name for their school in another section of the state. They left home Thursday morning in tip-top condition and confident that when they return there will be three more marks in the victory column.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

HOME CADETS BEAT ROOSEVELT RESERVE FIVE ON WEDNESDAY

Showing flashes of high-powered scoring, the speedy O. S. and S. O. Home Cadet basketball team took a sensational 34 to 23 game from the Dayton Roosevelt High Reserves Wednesday night at the Home Armory.

A spurt in the closing minutes of play brought victory to the Cadets, the winners making baskets right and left in the final period after playing on even terms with Roosevelt for three periods.

The Home's margin at the half was but a single point, 19 to 18. Martz, Home center, was head and shoulders above players of both teams as far as scoring goes, contributing twenty points on ten field goals. McCord's defensive play was also noteworthy.

In a game earlier in the season, the Home beat the Roosevelt Reserves 20 to 18 at Dayton. The Cadets meet Beaver High at the Armory Friday night.

The Home team is one of the strongest in the county and is considered the "dark horse" of the annual Greene County Class B Basketball Tournament to be held later this month. Lineups:

Home (34) Roosevelt (23)
Kaufman l. f. Brown
Lee r. f. Schuman
Martz c. Shannon
McCord l. g. Shaw

Robert Nooks, 19, colored, Lexington, Mo., is being held at Police headquarters suspected of implication in the theft of two auto tires from a car owned by George Holstein, junk dealer, Collier St. Nooks denies the theft.

Following a report of chicken thefts, Peter Shagin, motorcycle policeman, and Patrolman George Robinson, were sent to the Nooks residence Wednesday morning by Chief M. E. Graham to investigate, and while there, saw two tires of the same make which Holstein later reported as stolen.

After examining them, the officers returned to headquarters, having had no report of the thefts. Holstein telephoned concerning his loss shortly afterward and police returned to the Nooks home only to find the tires had disappeared.

Robert Nooks, only member of the family at home, denied knowledge of them. On the first police visit, Vaughn Nooks, brother of Robert, who is believed to be an escaped prisoner from the Dayton Workhouse, ran from the residence as the officers approached. They gave chase but Nooks eluded them, running through the fields.

FARM BUREAU ADVANTAGES ARE EXTOLLED AT WORKERS' SCHOOL

The Greene County Farm Bureau, through its co-operative marketing organization, means a saving of about \$150,000 annually to Greene County farmers, according to figures compiled and announced by W. W. Anderson, president-elect of the organization at the "Farm Bureau Workers' Team School" at the Court House, Wednesday.

In stressing the valuable aid to farmers given by the Farm Bureau, Mr. Anderson declared that statistics show that Greene County farmers who take advantage of their membership only invest about \$200 each year, but pointed out the savings of farmers through their use of co-operative livestock, dairy and wool marketing, purchasing, taxes, automobile insurance, freight reductions and extension work of the body. Mr. Anderson's talk was the first feature of the all-day meeting, following the opening song and roll call.

Stanley Lewis, Pickaway County Farm Bureau agent, addressed the 100 farmers present on "Believing in the Big Program." "The Farm Bureau Story" was told by Frank Lyle and "Farm Bureau Service" was described in the morning session by A. V. Conklin, head of the farm bureau livestock shipping organization. Mr. Lewis gave a second talk on "Salesmanship" urging the workers in the local membership drive to stress the good points of the organization in selling memberships.

Mr. Anderson outlined the next step in the membership drive in opening the afternoon session. Mr. Lewis told the farmers of "Salesmanship Resistance" and Mrs. L. H. Jones told of the work of the Farm Bureau.

A Word With the Old Folks
Elderly People Are Learning Importance of Good Elimination.

IN the later years of life there is apt to be a slowing up of the bodily functions. Good elimination, however, is essential to the old as to the young. Many old folks have learned the value of Doan's Pills when a stimulant diuretic to the kidneys is required. Scanty or burning passages of kidney secretions are often signs of improper kidney function. In most every community are scores of users and endorsers who acclaim the merit of Doan's. Ask your neighbor!

AVOID UGLY PIMPLES

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immediately effective result. Take regularly for a week. See how much better you feel and look. 15c, 30c, 60c.

Mr. Lewis closed the series of talks with an address on "Our Membership Agreement." Discussion of the membership campaign followed and supplies for the workers were distributed.

Dinner was served at 11:30 in the basement of the Court House. Group singing interspersed the talks during the day.

"GREAT IMAGE" TO BE CHURCH SUBJECT

"The Great Image" will be the subject of the special address of

the Rev. A. J. Furstnberger, pastor of the United Brethren Church, Sunday evening.

The pastor will illustrate his talk with a large chart picturing the image and drawing his text from Daniel 2:31-45. He will endeavor to show that the kingdom set up by Christ during the lifetime of the "image" will "break in" to pieces and consume all these kingdoms represented by the image. The public is invited to hear the address.

SCION OF WEALTH IS COAL DIGGER

POWERS HAPGOOD

By KARL PRETZHOLD
Exclusive Dispatch, Copyright,
1927

INDIANAPOLIS, Ind., Feb. 17.—When Powers Hapgood, son of a wealthy Indianapolis manufacturer, was graduated from Harvard and became an ordinary coal miner in Pennsylvania, he probably had no idea that his career as a coal digger would be touched with melodrama. He was interested in labor problems and in the activities of labor unions. He wanted to learn about the ordinary working man, he had no desire to engage in quarrels that would involve rifled mail, being lured to hotel rooms and assaulted, fist fights on convention floors and a trip around the world "underground."

But because he went into the coal mines and became an active member of the United Mine Workers of America, Hapgood's career has taken on many of the aspects of a time thriller. Hapgood joined the miners' union when he went to work about six years ago. He became active in support of John Brophy, radical leader of the central Pennsylvania miners. During the 1922 coal strike, Hapgood was made an international organizer of the union and helped solidify non-union miners in Somerset County, Pa. He was arrested for speaking on the streets, chased out of various towns for his union activities and his life was often threatened by over-zealous mine guards.

Worked Way Around World
But the university graduate coal digger stuck to his job and convictions. During the strike he refused to accept pay from the union for his work on its behalf.

After the strike Hapgood started on a trip around the world and worked in mines in England, Wales, France, Belgium, Germany, Russia, Siberia and Japan. Digging coal beside the miners of those nations he learned what they thought and much of the methods used for mining.

In Russia he was consulted by government officials on methods of improving the conditions of the workers and the methods of mining.

The trip took several years, and on his return to America, Hapgood gave labor leaders the benefit of his observations and experience in other countries. He also became active in support of Brophy when the latter ran for president of the mine union against John L. Lewis, who has been head of the union for many years.

A friend writing Hapgood a letter outlined the plans of the anti-Lewis forces for the election campaign in the union. He revealed that the Communists were supporting Brophy. Hapgood never got

the letter but John L. Lewis did. When Lewis published the letter showing the Communist support being given Brophy the Brophy cause was lost. Hapgood, not daunted, stuck to the union and was elected a delegate to the miners' convention. When he came to the city he received a mysterious phone call urging to meet an "old friend" in a certain room of a local hotel. He was assaulted by three men when he answered the call. He and his assailants were arrested, tried and discharged.

Thrown Out of Convention
His face still bearing the marks of the assault, Hapgood went to the union convention and his credentials were challenged on the floor and he was thrown bodily from the convention hall. He was told that he was no longer a member of the union.

In spite of his adventures and misadventures Hapgood plans to go back to the mines to work and continue his study of labor and labor unions.

SAVES MAN'S LIFE

CINCINNATI, O., Feb. 17.—Walter Jones, said to be from

Pimples, Boils, Skin Eruptions

Skilled physicians recognize the appearance of pimples, boils and other skin eruptions as being an indication of an abnormal condition of the system. This is why so many thousands have been enabled to free themselves of these unsightly blemishes and painful annoyances by taking a course of S.S.S. You owe it to yourself to try S.S.S. It helps Nature build up red corpuscles. It improves the processes by which the blood is nourished. It is time-tried and reliable.

I tried different kinds of remedies, but nothing did me any good until a friend advised me to take S.S.S., which I did. This was some time ago. Now I feel well, and I am getting along fine. S.S.S. stopped the itching and it cured me of boils. I advise all weak and run-down people to give S.S.S. a trial. It clears up the skin and makes you strong and fills you with energy." Mrs. J. W. Barker, 1337 Walnut Street, Cincinnati, Ohio.

S.S.S. is made from the purest roots of medicinal herbs and plants and is prepared in a scientific way in a modern laboratory.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

What is the Temperature of a Bride's KISS?

Now that we have the entire attention of all the customers out in front we will resume our seat and state without fear of successful contradiction that we are very proud of the weather, our office force, the kind of Gas we handle, the Tires we sell and the Presto-Light Batteries! This we KNOW!

If there are any brides or bride-grooms reading this they can finger up this temperature question themselves! We are not interested further in the subject.

I feel that the time has come for you folks to realize that it is very proper and fitting to get measured for a new set of Pennsylvanias. We have every-known size here and each and every one of them is for sale. These Tires would not be mentioned here except that the sale of them constitute a source of profit for us to remain in business. There is no selfish motive back of this suggestion nor should ANYone feel offended.

Inasmuch as we could handle any ole tire we WANTED to and chose Pennsylvanias as being the BEST we thought that you TOO would understand our high aims when we suggest that you lope in here and take these Tires away from us.

Mister Beeler the ad man on the Gazette was asked if he thought you folks here would buy these Tires of us if we mentioned it to you and he was so startled that he dashed right outta the shop and went away from here! So maybe we had better not say anything more on the subject. We'll just DROP it!

However if you are THINKING of buying Tires or Gas or Batteries it MIGHT be a good idea for you to come down and talk it over for a spell with us. Or if you do not need any of these things come in and we'll open a can of lawn-mowers or a pack of bananas. Gosh but we try to be reasonable!

Yours truly,

"PROSPERITY."

Shorty Says:

Prosperity showed me his piece for the paper he had written and after reading same I went over to Jones' and bought him one Ice Pack, some Aspirin and a dozen bottles of Nerve Tonic! He's taking these carefully and by NEXT Friday mebbe we will have an ad here worth while.

CAMP CHAIRMAN HAS REGULATIONS FOR CANDIDATES HERE

Dr. H. C. Messenger, Greene County chairman of enrollment for the Citizens' Military Training Camps, has received the following data concerning the camps, of interest to local young men when are planning or can enter the camps:

"The Citizens' Military Training Camps are the direct outgrowth of the Plattsburg, New York, camps of 1913, 1914 and 1915. Their aim is to make a direct contribution to the physical, mental and moral development of those participating by providing thirty days of active outdoor military training under the most desirable conditions.

"To be eligible to attend, candidates must be physically fit American citizens, or at least have taken out first papers for naturalization, and be of good moral character. Age requirements are: Basic—17 to 24, Red—17 to 25, White—18 to 28, Blue—19 to 31. That is, a basic candidate must not have had his 24th birthday by the time camp opens. A physical examination, inoculation and vaccination against typhoid-paratyphoid and small pox, and certificate of good moral character are required before enrollment.

"Necessary expenses, including transportation to and from the camp to which the successful candidate is assigned, will be met by the Government. Apply to the Corps Area C. M. T. C. officer for detailed information.

"Uniforms, shoes, hats, shirts, leggings and other articles of soldier's clothing, together with arms and ammunition, will be furnished without cost by the Army.

"Food is served in good variety and of the best quality, well cooked by qualified Army chefs. There is no charge whatever for meals, living quarters, or necessary laundry.

"The Citizens' Military Training Camps teach respect for authority, strengthen self-respect, develop alertness and self-reliance, increase patriotism and a regard for the rights of others, promote physical and moral courage, teach obstinacy and prompt decision, add stamina and virility to the manhood of the country and arrest decadence, and make the individual healthier and more efficient, thereby increasing the collective wealth of the country.

"Religion is respected and encouraged in the Army. Provision is made permitting each candidate to follow the faith of his choice.

"Every day, except Sunday, is devoted to athletics, physical training, drills, and target practice."

"JIGGS" AVERSE TO TROUBLE

Where is there a dog that dislikes a good fight? Amazing as it may seem, "Jiggs," the Eskimo Spitz owned

ed by Ellsworth Weaklin, City Hall custodian, has this aversion. It has become a pet of members of the Police Department.

Just let any person, friend or stranger pick a friendly quarrel, should a scuffle ensue between prisoners and the arresting officer, or in the event of any similar excitement, and

"Jiggs" will immediately raise a commotion. When everything

has calmed down, "Jiggs" curls up on the floor once more.

BOBBIE RANSOM, a little blond school teacher, is movie struck, and wildly eager to go to Hollywood to break into pictures. Neither her widowed father nor her Aunt Gertrude will lend her the money she needs. Neither will young ANDY JERROLD, who's in love with her and wants her to stay at home and marry him.

Finally she borrows \$500 from the widow who is to marry her father, and goes to Hollywood. At Mrs. Mangan's boarding house she meets STELLA DELROY, an extra girl. Through her she gets a few days' work at the Magnifica Studios in a ROY SCHULTZ picture. She becomes great friends with Roy's wife, LOTTIE. GUS MacCLOUD, the assistant director, falls in love with her and she with him.

But when she learns that he's married, and that his wife is divorcing him, she says she'll see him no more. But her longing for him proves too much for her, and she remains friends with him but refuses to let him make love to her until he's free. Then his wife dies, and Bobbie is surprised that Gus, who seems to her violently in love with her, doesn't ask her to marry him. One day he tells her he doesn't believe in marriage for film folks.

Bobbie learns that he is running around with MONICA MONT, a movie actress who has lived in Mrs. Mangan's, and who "borrowed" most of Bobbie's clothes and even some of her jewelry when she left. Lottie Schultz is jealous of Monica, too, because Roy spends so much of his time there at wild parties. One night, at the New Year's eve party at MacCloud's house, Stella Delroy drinks poison and leaves behind her a letter telling of her unhappy love affair with Gus MacCloud. But neither that nor her jealousy of Monica, cures Bobbie of her infatuation for MacCloud. He lends her money on a diamond brooch, which he by Aunt Gertrude, who dies suddenly, and on a diamond bracelet that was Andy's Xmas present to her. He persuades her to stay on in Hollywood, where she grows discouraged, and when he finally gets a picture to make at Magnifica, offers her a part in it. He takes her to the deserted studio on a Sunday afternoon to show her the Dutch costume she's to wear, and she puts it on behind a screen in his office, and steps out from behind it to ask him how she looks as Gretchen, in the film "Hilda From Holland."

NOW GO ON WITH THE STORY.

CHAPTER XLVII.

Gus did not look up for a minute or so.

He merely nodded and went on reading a letter that lay before him on the desk. Bobbie could see that he frowned as his eyes traveled down the pale gray page, with a silver monogram on the top. She wondered whose monogram it was.

Slowly and absent-mindedly he drew his flat gold cigarette case from his pocket and laid it on the desk. Then from another pocket he drew a gold match case, and lit a cigarette. He went on reading.

"Well," he said finally, his eyes still on the letter, "I'll be—jiggered!" His frown had turned into a black scowl.

"What's the matter?" Bobbie came closer to him, and leaned against his desk, her full blue satin skirts billowing around her and the long yellow braids swinging from side to side as she moved.

"Gosh, you look like a billion!" Gus' eyes suddenly smiled, clearing the scowl away from his face.

He repeated it slowly, "Gosh, you look like a billion in that rig."

He got up, slowly, too, and came around the corner of the desk, and put his hands on her shoulders. She could feel their warm smooches, heavy pressure through the white muslin bodice of the Dutch dress.

Then suddenly he lifted them from her, and shoved his swivel chair toward her across the floor.

"Sit down, Bobbie, I want to talk to you," he said, and swung one leg over the corner of the desk, and faced her.

"Look here," he began, "it's a dead certainty that they'll let me put you into this picture. And it's a good part. I think I can work it so Magnifica will give you a contract by the time we've finished the picture."

Bobbie's toes, inside the wooden shoes she was wearing, curled up tightly. Her hands clenched themselves, so that her nails bit her palms, in her tense nervousness. A hard ball came into her throat, but she wanted to shriek with happiness that fairly hurt. A n-tract! A steady salary! A chance, at last, after all these months of waiting—waiting—waiting—she seemed too wonderful to be true.

Her voice came at last, small and suffocated.

"Oh, Gus!" she said, "how can I say thanks?" You're doing so much for me—

"Well, I am," he cut in quickly. "We may as well be sensible about it, and admit the truth, Bobbie. You know, yourself, that you haven't been able to get anywhere by yourself in the six months you've been here."

That, of course, was the truth no matter how much it hurt, and Bobbie nodded.

"You know, just as well as I do, that this town's full of girls as pretty, or even prettier than yourself," Gus' smooth voice ran on. "Looks and brains don't count much when a girl's trying to break into pictures, these days. Some time she gets in by a stroke of pure luck—but oftener it's because some man is back of her, pushing her as I'm going to push you."

He reached out for her, her small limo hands, and held it tight as he went on.

"I can do a lot for you—I can make you if you'll let me. I'm in a position to, now. And if you'll just put yourself into my hands—"

"I will!" Bobbie interrupted him eagerly. "I'll do everything you tell me to do. I'll obey you like a trained seal. Watch me!"

Little did she suspect, as she said it, where that innocent little remark was going to lead her that afternoon.

Gus laughed. "All right, we'll begin today," he said. "Go and jump into your other clothes, and I'll show you just here to tart, and how."

Bobbie wondered what he meant, as she took off the blond wig, the white muslin bodice, the blue skirts and the wooden shoes of Dutch Gretchen. In five minutes she was back in the little white sports dress and the tiny felt hat that had been steamed and pressed dozens of times in Mrs. Mangan's kitchen so that it always looked fresh and new and so smart.

"Here I am, Gus," she called lightly to MacCloud, as she stepped out from behind the dusty green screen.

He was reading the letter on pale gray paper for the second time. But when she came up to him, he stuffed it into his trousers pocket, and got up.

Down the bare wooden stairs they went, arm in arm, locked closer on every step. Then out into the court, yard filled with blinding sunlight, and into the dark-green roadster. Through the iron gates, and out into Sunset boulevard, crowded with automobiles. As Gus said, everybody in the world seems to drive a car on Sunset!

At first Bobbie thought he was heading for Beverly Hills and his own white house. But he turned off suddenly into a quiet little side-street, lined with white houses and shaded with pepper trees.

At the very end of it was a tiny private park with a thread-like brook running through it, and facing it was a small white house.

"What a duck of a little house!" Bobbie cried as Gus stopped his car in front of it. Then a terrible thought struck her—perhaps some friends of his lived in it, and perhaps they were going calling on them!

"Oh, Gus, I don't want to go in!" she said, as he got out and opened the door on her side of the car.

"Look at me," he said, "it's too short, and I've been crying! I can't go visiting!"

"Nobody wants you to, goose," Gus laughed at her. "Come on, and get out. I want to show you this house."

Without stopping to wonder why he wanted to show it to her, Bobbie got out of the car and followed him up the flagged walk. Together they went around the little fairy-tale house, peeping in at all the windows. The rooms were as quaint as the house itself. They were filled with lovely old-fashioned furniture, bright rag rugs, old pewter ware, and flowered chintz curtains.

"It belongs to an artist and his wife who have gone to New York for the winter," Gus told her as they looked in at the little kitchen with its rows of shining pewter and copper pots, its glistening china, its rustled shelves.

Behind the house there was a neat little yard that sloped down to a wall that overhung the tiny brook.

"I never saw anything so pretty as this in my life!" Bobbie declared as she and Gus leaned over the stone wall, side by side. "If I had a house of my own, I'd want it to be just like this."

Of course, she didn't want a house of her own. Nothing was further from her desires. What she did want, just then, was a career—the thing that Gus had just promised to give her, if she would put herself into his hands. A career in pictures. What could
